 Jhajjar, Hr, India

Key Skills

- Molecular Biology
- PCR
- DNA/RNA isolation
- Biochemistry
- SDS
- Gel electrophoresis
- Aflp/Rflp
- Elisa
- Cell Culture
- Molecular Docking
- Computational Biology
- Equipment maintenance
- Data Analysis

Languages

- English
- Hindi

Arvind Vashist

||M.Sc Medical Biotechnology||

About me

A driven and enthusiastic Medical Biotechnology student with a foundation in clinical and computational biology. Possessing robust analytical abilities and expertise in molecular biology, adept in employing biotechnological methods for evaluation.

Objectives

To obtain a challenging position in field of Biotechnology where where I can apply my analytical and technical competencies to enhance the progress of biological research endeavors.

Education

- **Masters in Medical Biotechnology**
Maharishi Dayanand University, Rohtak
2021-2023 percentage: 66%
- **Bachelors in Life Sciences**
(zoology, botany and chemistry)
Pt. Neki Ram Sharma Govt college, Rohtak
2017-2020 percentage: 61%
- **12th [Board of School Education Haryana]**
(biology, physics, chemistry and computer science)
2016 percentage: 81%
- **10th [Board of School Education Haryana]**
2014 percentage: 92%

Work experiences

- **Dissertation**

In-silico analyses of SNPs in Mycobacterium tuberculosis for next generation drug resistance.

- **Additional work**

1. Genetic polymorphisms in Paraoxonase (PON1) gene and its association with pesticides included genotoxicity in agriculture workers.
2. A comprehensive investigation into the New Castle disease virus in avian organisms.

Hands on experience

- Experienced in data analysis, statistical analysis, and data visualization
- Knowledge of biotechniques such as PCR techniques, Gel electrophoresis, ELISA, SDS-PAGE, staining techniques, DNA/RNA isolation, equipment maintenance.
- Proficient in genomic analysis tools such as BLAST, Clustal omega
- Familiarity with MS office: excel, word and PowerPoint.
- Handling and dosing of laboratory animals such as mice and rabbits.
- Molecular-Docking studies for interpretations.
- Computational studies of drugs and their receptors with help of computational tools.

Hobbies

- Travelling
- Listening music
- Cooking
- Playing Cricket

Declaration

All the details mentioned above are true and correct to the best of my knowledge and beliefs.

Arvind Vashist
