SUMMARY

- Experienced student radiographer skilled in assessing patients and collaborating across disciplines to address various examinations and procedures. Connects with and supports patients of diverse cultures, backgrounds and socioeconomic statuses to deliver fair, equitable and accurate healthcare services.
- Involved with the radiological environment and did practice on the X-rays, Computed tomography, Magnetic resonance imaging, and some fluoroscopic procedures.

EXPERIENCE

Radiographer, 07/2023 - 01/2024
Fortis Hospital Shalimar Bagh - Delhi, India

- Used clinical judgement to position X-ray, MRI, mammographic and CT equipment to capture best images.
- Reduced patients' anxiety and enhanced their cooperation by educating them on procedures.
- Produced minimal radiation dosage by using ALARA principle, in-line with safety guidelines, reducing adverse effects.

Student Radiographer, 09/2022 - 04/2023
TMU Hospital - Moradabad, India

- Acquired new skills by shadowing senior staff.
- Shared preventive information with patients to help reduce incidents of illnesses and injuries.
- Followed clinical guidelines for optimum care and adhered to required paperwork and informed consent standards.
