Office Tel. No.: +966 2417875

RESEARCH AND TEACHING EXPERIENCE (18 years)

Extensive (18+ years) research experience in immunogenicity and molecular biology assays, immunogenicity assay development and quantification in various Clinical Laboratories (Clinical Laboratory, Medical College Hospital KKU, Research Lab in Indian Spinal Injuries Centre, Biochemistry Lab in P.D.M. Dental College & Research Institute, Bahadurgarh) in hospitals/academic labs. Different types of antibodies have been generated in various models including mAbs, multi specific Ab and used them as therapeutic protein. Various Ab-Drug Conjugate have also been generated and steady in various human and animal models. Developed ligand binding assays such as binding of antigen with the antibodies and studied in various types of patients (cancer, diabetes, SLE, rheumatoid arthritis, et.). Extensive knowledge of all types of immunological and immunogenicity data against various types of antigens including clinical aspect, their immunogenicity and their interaction in different types of patients. Developed bioanalytical assays in different studies (PK, PD and ADA) for various types of antigens generated in our labs. About 15 different types of antigens have been generated (designed) in our lab and some of them can be used a biomarker (immunological) for the detection of different diseases (cancer, diabetes, SLE, rheumatoid arthritis). These antigens were groups of different types of molecules such as proteins, modified protein, recombinant protein, protein conjugates, protein adducts, modified DNA or conjugate bases (details of each antigen and their immunogenicity assay development are available in our 33 research articles). In addition, we have developed ELISA to detect some of these antigens as a biomarker for different types of disease or can be used for early detection of the diseases. We have completed 5 projects (4 as PI and 1 as Co-PI) based on the concept of immunogenicity assay development and used some of the antigens as biomarker in different types of disease in these projects. Still 4 projects are in continuation in collaboration with other universities. Side by side, I also took the classes of MBBS, BDS, and Pharmacy students (and post graduates students also) in addition to do research and other administrative activities.

Keyskills:

1. **Teaching/Research:** Vast experience (18 years) of Teaching/Research in various International/National Medical Colleges/Dental colleges/Hospitals/Clinical Labs etc.
2. **Medical writing:** Vast experience (18 years) of writing medical content & projects related with clinical and medical science, clinical trials, etc.
3. **Field of Research:** Clinical Biochemistry, Molecular biology, Immune responses & Immunology in Cancer, Diabetes, Lupus, Rheumatoid Arthritis, Biomarkers studies, Toxicology studies, etc.
4. **Techniques known:** SDS-PAGE, western blotting, ELISA, Cell culture techniques, Molecular biology techniques, Molecular Diagnostics, etc.

Employment:

1. Assistant Professor (4th Nov. 2008 to Till Date)

Department of Clinical Biochemistry,
College of Medicine, King Khalid University,
Abha, KSA.

Laboratory Role: Supervised and to have a looked at the day to day activities and handling of automated instruments in Clinical Laboratory, Medical College Hospital, KKU. Done research activities for various projects.

Teaching Role: Took classes of graduates (MBBS, BDS, and Pharmacy) and post graduates in the College of Medicine, KKU.

2. Basic Research Scientist (1st October, 2007 to 27th September 2008)

Worked as a **Basic Research Scientist** in **Indian Spinal Injuries Centre, Sector-C, Vasant Kunj, New Delhi-110070, INDIA**. **Responsibilities** include conduction of research related to immunogenicity and molecular biology assays, immunogenicity assay development by using the techniques like ELISA, Cell Culture, Immunohistochemistry, Cell Isolation and Quantification, Western Blot, Electrophoresis, Spectrophotometers, etc.

3. Lecturer in Biochemistry (28th, October 2006 to 28th, September 2007)

P.D.M. Dental College & Research Institute, Bahadurgarh HARYANA, INDIA

Laboratory Role: Supervised laboratory, research related activities and handling of automated instruments in Biochemistry Laboratory, P.D.M. Dental College.

Teaching Role: Took classes of graduates (BDS) students in Department of Biochemistry, P.D.M. Dental College.

4. Lecturer in Biochemistry (15th April 2006 April to 25th October 2006)

Hindustan Institute of Dental and Research, Greater Noida, INDIA
(SHARDA GROUP OF INSTITUTION)

Educational Qualification

- 2006:** **PhD in Medical Biochemistry**, Department of Biochemistry, J. N. Medical College, Faculty of Medicine, A.M.U. Aligarh, 202002, INDIA.
- 2003:** **Master of Science (Biochemistry)** with Ist Division, Department of Biochemistry, Faculty of Life Science, A.M.U. Aligarh, 202002, INDIA.
- 2001:** **Bachelor of Science (Biochemistry)** with Ist Division, Department of Biochemistry, Faculty of Life Science, A.M.U. Aligarh, 202002, INDIA.
- 1998:** **SSSC (XII)** with Ist Division, A.M.U. Aligarh, 202002, INDIA.
- 1995:** **SSC (X)** with Ist Division, A.M.U. Aligarh, 202002, INDIA.

Other Qualification

Qualified Joint CSIR-UGC **National Eligibility Test (NET)** for Lectureship held on 22nd June, 2003 in Life Science, INDIA.

Subject Taught

Clinical Biochemistry, Clinical Chemistry, Metabolism of protein, lipids, carbohydrates, DNA, RNA, LFT, Molecular Biology, Genetics, Molecular Cell Biology, Biomolecules, Nutrition, Enzymology, Environmental Biochemistry, Biotechnology, Vaccine, Protein Biochemistry, Immunology, Biotechnology etc.

Honours/Awards

1. **Reviewer for Catalan Agency for Health Technology Assessment and Research (CAHTA)**, Roc Boronat, 81-95, 2^a planta. 08005 Barcelona, Spain for Research Proposal evaluation.
2. **Reviewer for King Abdulaziz City for Science and Technology (KACST)** for Research Proposal evaluation.
3. Biography Published in **Who's Who in the World 2011, 2017, 2018, 2019, 2020** for the contribution towards science and higher education from India (Marquis Who's Who VIP Number is: 35543145).
4. Honors as **Best Faculty** (third position) in the College of Medicine, KKU for E-Learning System.

Association with International Companies

1. **Academic Advisory Board Member**, Sciedite Co., Ltd., Sciedite Branch Office, Beijing Room 1605, Jincheng Center, Jiukeshu Road Tongzhou District, 101101 Beijing, China. www.sciedite.com
2. **Scientific Adviser**, Creative Dynamics Inc. 45-1 Ramsey Road, Shirley, NY 11967, USA

Administration Experience

1. Chair of Exam Review Committee
2. Member of Students Advisory Committee
3. Administration of Clinical Laboratories

Guest Editor/Reviewer for the Journal

1. **Leading Guest Editor** Journal of Diabetes Research
2. **Guest Editor for** “Recent Patents on Biomarkers” on thematic issues”
3. **Guest Reviewer for** “Advances in Bioscience and Biotechnology”

Reviewer of International Journals

- I) **Scandinavian Journal of Immunology.**
- II) **PLOS ONE.**
- III) **International Immunopharmacology.**
- IV) **Advances in Bioscience and Biotechnology.**

Research Projects

Completed

1. “Cloning and Expression and of Alpha Interferon-2b in *E.coli* Cells”. (Project Number: KKU-MED 11 / 013), 2016, Deanship of Scientific Research, King Khalid University, Abha, KSA (Completed).
2. “Evaluation of 16 alpha-hydroxyestrone-histone adduct as a new biomarker for Rheumatoid Arthritis (RA)”, (Project Number: 246), 2018, Deanship of Scientific Research, King Khalid University, Abha, KSA. (Completed)

3. “Role of 16 α -hydroxyestrone in the etiopathogenesis of Systemic Lupus Erythematosus (SLE)”, 2018, (Project Number: 91) Deanship of Scientific Research, King Khalid University, Abha, KSA. (Completed).
4. “The role of 16 α -hydroxyestrone (16 α -OHE₁) in the etiopathogenesis of estrogen related cancers”, 2018, (Project Number: R.G.P.1/53/39), Deanship of Scientific Research, King Khalid University, Abha, KSA. (Completed).
5. “Detection of catecholestrone-insulin (CE-I) adduct as a new biomarker for Type I Diabetes”, 2019, (Project Number: 291) Deanship of Scientific Research, King Khalid University, Abha, KSA. (Completed).

In-continuation

1. Novel combinational anti-cancer therapeutics: Synergistic effect of carbamoyl methyl amide (CMAs) derivatives and $\gamma\delta$ T cells on the cytotoxicity of cancer cells. 2019 (Project Number: RG-191332) Research Deanship, University of Hail. KSA (In-continuation).
2. Natural products and their derivatives: Potential function as anti-glycation and anti-oxidant and role in immune imbalance in age-related disorders. 2020 (Project No.: RG-20 120). Deanship of Research, University of Hail, KSA (in-continuation).
3. Immunological role of estrogenized proteins in different types of cancer. 2021 (ProjectNumber:RGP. 1/110/42)DeanshipofScientificResearch,KingKhalid University,Abha, KSA. (In-continuation).
4. Role of estrogenized insulin in the etiopathogenesis of estrogen related cancers. 2021 (ProjectNumber:GRP. 1/378/42)DeanshipofScientificResearch,KingKhalid University,Abha, KSA. (In-continuation).

Submitted

1. Evaluation of 16 α -hydroxyestrone-histone adduct as a new biomarker for Cardiovascular Disease and Hypertension, 2018, King Abdulaziz City for Science and Technology, KSA. (Submitted).

Book Editor

1. Editor“**Autoantibodies and Cytokines**” Intechopen, The Shard, 32 London Bridge Street, London SE1 9SG, United Kingdom.. 2019. (ISBN 978-1-78984-853-3).

13. Banu, N. **Khan, W. A.**, Al-Qirim, T. M. *In vitro* antioxidant/proxidant properties of khat (*Catha Edulis* Forsk) and its constituents on DNA. 93rd Indian Science Congress, Hyderabad Univ. Hyderabad, Jan 3-7th , 2006.
14. Banu, N., **Khan, W. A.**, Al-Qirim, T. M. Modulation of Khat (*Catha Edulis* Forsk) extract and its constituents induced degradation of protein by various antioxidants. In proceedings of 2nd International conference of ISAH and international seminar on chronic diseases and its management by complementary and alternate medicine (CAM). September 23-25th 2005. Organized by Institute of Medical Sciences, BHU, Varanasi & School of Medicine, University of Connecticut, USA.

Workshop Attended

1. Professionalism in Medical Education on 28th April 2016, Medical Education, College of Medicine, KKU, KSA
2. Workshop on Research Methods and Statistical Analysis on 18-19 November 2015, College of Applied Medical Science, KKU, KSA
3. Workshop on “How to develop high quality MCQ’s” held at College of Medicine, King Khalid University, SA (27th October, 2013)
4. Workshop on “Stem cell in regenerative medicine” held at Stem Cell Unit, College of Medicine, King Khalid University, SA (30th April, 2013)
5. Workshop on “Course Building & Activation of Blackboard-9” held at King Khalid University, SA (9th-13th January, 2010).
6. Workshop on “E-learning in Medical Education” held at King Khalid University, SA (6th-9th December, 2009).
7. Workshop on “Bioinformatics in the study of Biomolecules” sponsored by the Department of Biotechnology, Ministry of Science and Technology, Govt. of India.
8. Workshop on “NCAAA Requirement and Procedures for Program Accreditation and Preparation for Program Accreditation” held at College of Medicine, King Khalid University, KSA (1-2nd March, 2015)

Passport Details:

Passport No: M3846333

Date of Issue; 10th Dec, 2014

Date of Expiry; 9th Dec., 2024

Personal:

Father's name	:	Mr. Shahid Ali Khan
Date of Birth	:	15 th March 1979
Nationality	:	Indian
Marital Status	:	Married
Permanent Address	:	4/131 H, Street-5 Tayab Colony Sir Syed Nagar, Aligarh, 202002. (UP), INDIA.
